PEF Review

- **DOM 2608.1**

Pursuant to Section IV.M. of the Tucker Consent Decree, all new construction undertaken by the Department shall conform with Title 24 of the California Code of Regulations, the Americans with Disabilities Act Access Guidelines (ADAAG), and the Federal Outdoor Developed Area Standards. To ensure compliance with these laws and regulations, it is the policy of the Department that all projects be submitted to the Accessibility Section for review via a DPR183, Project Evaluation Form (PEF). This includes projects that may be exempt from environmental review, such as replacing surface markings on paved areas, or renovating interiors of non-historic structures. Construction projects that appear to have no element of accessibility are included in this policy because unless a facility is totally compliant, any project that includes alterations, additions, or structural repairs to a facility must incorporate certain access improvements per section 1134B of the California Building Code.

- **Review Submittal**

District or park staff responsible for developing projects may submit PEFs to the Accessibility Section via email to Steve, Travis or access@parks.ca.gov; facsimile; or through U.S. or interoffice mail.

- **Accessibility Review & Comments (DPR 727)**

- **Verification Report (DPR 339)**
